

IAN KYLE FELIX MAGHINAY

SYSTEM DEVELOPER / WEB DEVELOPER

 Cabangan, Zambales, Philippines
 09695202982

 iankyle1717@gmail.com

PROFESSIONAL SUMMARY

Full-stack developer focused on enterprise systems, engineering management platforms, and responsive web applications using .NET technologies. Experienced in building paperless workflow systems, machine monitoring solutions, database-driven applications, and modern UI/UX interfaces using Bootstrap, Tailwind CSS, React, and Node.js.

TECHNICAL SKILLS

- Frontend:** HTML5, CSS3, JavaScript, React, Bootstrap, Tailwind CSS
- Backend:** C#, VB.NET, ASP.NET MVC, .NET Core API, Node.js, WinForms
- Database:** SQL Server, SSMS, Stored Procedures, Database Design
- Tools & Systems:** Visual Studio, VS Code, GitHub, REST API, Automated Storage Architecture

PROFESSIONAL EXPERIENCE

Sanyo Denki Philippines 2025 – 2026
Production Engineer / Full-Stack System Developer Subic, Zambales

- Developed and maintained complex enterprise workflow systems and custom machine monitoring applications.
- Built and deployed an end-to-end Engineering Management System (EMS) resulting in completely paperless operations and accelerated automated workflows.
- Optimized enterprise SQL Server databases, architecture, stored procedures, and production reporting systems.

MACSAT Inc. 2024
Computer Programming Teacher Zambales

- Instructed students in structural programming fundamentals, object-oriented C# concepts, advanced CRUD operations, and foundational web development frameworks.

PRMSU Iba Campus 2025
Guest Speaker Iba, Zambales

- Conducted a comprehensive technical seminar focusing on robust C# enterprise development, clean data architectures, and optimized CRUD operations for computing students.

KEY PROJECTS

Engineering Management System (EMS) Enterprise Platform

A high-performance enterprise web-based platform engineered comprehensively for manufacturing, structural workflow automation, and real-time production tracking. Built intentionally to fully replace legacy documentation with streamlined digital operations.

- Machine Monitoring
- Engineering Reports
- Inventory Tracking
- Weekly Recording
- Fabrication Monitoring
- Workflow Automation
- Trouble Handling
- Preventive Maintenance
- Paperless Operations

EDUCATION & CORE TRAINING

President Ramon Magsaysay State University (PRMSU)

2020 – 2024

Bachelor of Science in Computer Science — Graduated

Main Campus, Iba, Zambales

PRMSU Operations Division

June 2023 – August 2023

Technical Support Specialist / Administrative Support Specialist (Practicum)

Iba, Zambales

- Maintained enterprise systems, troublesated computing hardware infrastructures, and processed strategic institutional office documentation.

Local Government Unit of Cabangan

May 2018

Data Encoder (Student Aide)

Cabangan, Zambales

KEY ACHIEVEMENTS

- ✓ Successfully digitized legacy engineering processes via EMS platform implementation.
- ✓ Industry Guest Lecturer for PRMSU CCIT-DIGITS Main Campus Student Organization.
- ✓ Facilitated DevDuos Workshop on WinForms CRUD and enterprise dev workflows.
- ✓ Built responsive multi-tier systems with modern UI/UX architecture.

HOBBIES & INTERESTS

- Software Development & Programming
- Learning Emerging Technologies
- UI/UX & System Design
- Technical Training & Mentoring
- Community Service & Church Involvement
