

IAN KYLE FELIX MAGHINAY

Full-Stack Software Engineer | .NET & Web Developer

Cabangan, Zambales, Philippines • +63 969 520 2982 • iankyle1717@gmail.com

Portfolio: iankylemaghinay.vercel.app • GitHub: github.com/iankyle1717

PROFESSIONAL SUMMARY

Full-Stack Software Engineer passionate about building practical software that solves real business problems. Experienced in developing web applications with C#, ASP.NET, .NET, SQL Server, React, and Tailwind CSS, with a strong focus on workflow automation, database design, and responsive user interfaces. Proven ability to transform manual processes into reliable digital systems while writing clean, maintainable code and collaborating effectively throughout the development lifecycle.

TECHNICAL SKILLS

Frontend: React, JavaScript, HTML5, Tailwind CSS, Bootstrap

Backend: C#, .NET Core API, ASP.NET MVC, VB.NET, Node.js, WinForms

Database & Architecture: SQL Server, SSMS, Stored Procedures, Database Design & Optimization, CRUD Architecture

Developer Tools & Methodologies: Visual Studio, VS Code, Git / GitHub, RESTful APIs, Agile Workflow

PROFESSIONAL EXPERIENCE

SANYO DENKI PHILIPPINES | Production Engineer / Full-Stack System Developer

Subic, Zambales, Philippines • 2025 – 2026

- Architected and deployed an end-to-end Engineering Management System (EMS), transitioning plant operations to paperless workflows and accelerating inter-department approval cycles.
- Engineered real-time machine monitoring and automated trouble-handling systems, improving operational transparency and reducing equipment downtime tracking manual overhead.
- Optimized enterprise SQL Server database architecture, writing efficient stored procedures and queries to boost reporting performance and data integrity across production environments.

MACSAT INC. | Computer Programming Instructor

Zambales, Philippines • 2024 – 2025

- Instructed students in structural programming, Object-Oriented C# design patterns, advanced database CRUD operations, and web development fundamentals.

PRMSU IBA CAMPUS | Guest Speaker & Technical Lecturer

Iba, Zambales, Philippines • 2025

- Conducted specialized technical seminars on enterprise C# development, robust database schemas (CRUD), and clean data architectures for computing majors.

KEY TECHNICAL PROJECTS

- **Engineering Management System (EMS) — Enterprise Platform**

High-performance manufacturing intelligence platform featuring machine downtime tracking, fabrication recording, Machine Monitoring, and automated paperless approval routing.

- **Automatic Stamping Machine Jig Checker Web App**

Manufacturing auditing solution developed to validate stamp machine jigs, significantly reducing production defect rates.

- **Engineering Documents Online Approval & Stamping System**

Digital review platform replacing physical stamps with encrypted electronic validation, reducing document sign-off cycles.

- **Modern Acts Church Management System — Live Demo: modernacts.vercel.app**

Full-featured web application streamlining membership tracking, events, and administrative workflows.

EDUCATION & EARLY EXPERIENCE

President Ramon Magsaysay State University (PRMSU)

Bachelor of Science in Computer Science (BSCS) • Main Campus, Iba, Zambales • 2020 – 2024

- **PRMSU Operations Division — Technical & Administrative Support (Practicum) | 2023:** Maintained internal systems, assisted with high-availability IT infrastructures, and institutional data management.

CERTIFICATIONS & RECOGNITION

- Certificate of Recognition — Development of the Automatic Stamping Machine Jig Checker Web Application
- Official Recognition Award — Design and Implementation of the Engineering Documents Online Approval and Stamping System
- Industry Guest Lecturer Designation — PRMSU CCIT-DIGITS Student Organization
- Technical Workshop Lead Facilitator — Lead Instructor for DevDuos Workshop (WinForms CRUD & Enterprise Workflows)
