

IAN KYLE FELIX MAGHINAY

SYSTEM DEVELOPER / WEB DEVELOPER

Cabangan, Zambales, Philippines

09695202982 • iankyle1717@gmail.com

Portfolio: iankylemaghinay.vercel.app

GitHub: <https://github.com/iankyle1717>

PROFESSIONAL SUMMARY

Full-stack developer with experience building enterprise systems, engineering management platforms, and responsive web applications using .NET technologies. Skilled in developing paperless workflow solutions, machine monitoring systems, and database-driven applications with a focus on improving business processes. Proficient in React, ASP.NET, SQL Server, Bootstrap, and Tailwind CSS.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Bootstrap, Tailwind CSS

Backend: C#, VB.NET, ASP.NET MVC, .NET Core API, Node.js, WinForms

Database: SQL Server, SQL Server Management Studio (SSMS), Stored Procedures, Database Design

Tools: Visual Studio, VS Code, GitHub, REST APIs

PROFESSIONAL EXPERIENCE

Sanyo Denki Philippines | Production Engineer / Full-Stack System Developer

Subic, Zambales, Philippines • 2025 – 2026

- Developed and maintained complex enterprise workflow systems and custom machine monitoring applications.
- Built and deployed an end-to-end Engineering Management System (EMS) resulting in completely paperless operations and accelerated automated workflows.
- Optimized enterprise SQL Server databases, architecture, stored procedures, and production reporting systems.

MACSAT Inc. | Computer Programming Teacher

Zambales, Philippines • 2024

- Instructed students in structural programming fundamentals, object-oriented C# concepts, advanced CRUD operations, and foundational web development frameworks.

PRMSU Iba Campus | Guest Speaker

Iba, Zambales, Philippines • 2025

- Conducted a comprehensive technical seminar focusing on robust C# enterprise development, clean data architectures, and optimized CRUD operations for computing students.

KEY TECHNICAL PROJECTS

Engineering Management System (EMS) — Enterprise Platform

A high-performance enterprise web platform engineered for manufacturing operations, structural workflow automation, and real-time production tracking. Built to comprehensively replace legacy documentation with digital frameworks.

Core Implementations: Machine Monitoring (Engineering Reports, Inventory Tracking) • Production Analytics (Weekly Recording, Fabrication Monitoring) • Workflow Automation (Trouble Handling, Preventive Maintenance, Paperless Approval)

Automatic Stamping Machine Jig Checker Web Application

Developed a customized manufacturing validation application to check and audit automatic stamping machine jigs, mitigating operational defects.

Engineering Documents Online Approval and Stamping System

Designed and deployed a modern automation platform to streamline digital review cycles, strict internal approval routing, and secure electronic stamping workflows.

Modern Acts Church Management System — Web Application

Designed and deployed a modern automation platform to streamline digital review cycles, strict internal approval routing, and secure electronic stamping workflows.

EDUCATION & CORE TRAINING

President Ramon Magsaysay State University (PRMSU) | BS in Computer Science

Graduated • Main Campus, Iba, Zambales • 2020 – 2024

PRMSU Operations Division | Technical & Administrative Support Specialist (Practicum)

Iba, Zambales • June 2023 – August 2023

- Maintained enterprise internal systems, troubleshoot high-availability computing infrastructures, and processed strategic institutional records.

Local Government Unit of Cabangan | Data Encoder (Student Aide)

Cabangan, Zambales • May 2018

CERTIFICATIONS & RECOGNITION

- Certificate of Recognition – Development of the Automatic Stamping Machine Jig Checker Web Application.
- Official Recognition Award – Design and Implementation of the Engineering Documents Online Approval and Stamping System.
- Industry Guest Lecturer Designation – PRMSU CCIT-DIGITS Student Organization.
- Technical Workshop Facilitator – Lead Instructor for DevDuos Workshop (WinForms CRUD and Enterprise Workflows).
